

## **Best Practice: 1**

### **1. Title of the Practice**

Synergy with Industries and Institutions

### **2. Objectives of the Practice**

To promote linkage with Industries/Institutions in Curriculum Development, Internship Training, On-the-job-training, Research, Consultancy, Extension, Staff /Student Exchange and Student Placements.

### **3. The Context**

Situated in a rural and economically backward (Low GER) area and most of the students are first generation learners, finding suitable industries/institutions to establish a linkage is very challenging.

### **4. The Practice**

Linkages are established with renowned institutions/industries in terms Incubation and Peer-Teaching/Discussion forums to bring about innovations in Curriculum Development (Experts serve as members in BoS, Internship/On-the-job-Training for students, Research, Consultancy, Extension, Staff/Student Exchange and Student Placements. To implement the practice we have signed functional MoUs in the academic year 2020-2021.

### **5. Evidence of Success**

- No. of Innovative Courses introduced in the latest syllabus revision: 230
- No. of students undergone Internships : UG - 585 & PG - 300
- No. of students received placements : 202
- No. of Research Papers published : 78
- Revenue generated through Consultancy Services: Rs. 8, 10,581
- No. of Extension Activities conducted : 97

### **6. Problems Encountered and Resources Required**

Sivakasi has limited type of industries such as fireworks, match works and printing industries. Since the UGC and other agencies have stopped funding, the college has to manage from its own resources.

### **7. Notes**

Through the Peer-Teaching/Discussion forums and Incubation Programmes experts from other institutions/industries and students find common platforms to discuss innovative topics for higher studies/research avenues as well as for entrepreneurship opportunities.

## **Best Practice: 2**

### **1. Title of the Practice**

Activities to promote Excellence in Sports and Games

### **2. Objectives of the Practice**

To make students excel in sports and games and emerge as University Blues to secure respectable careers/jobs in government/private organizations.

### **3. The Context**

ANJA College excels in sports/games ever since its inception and is one among four institutions in Tamil Nadu to offer B.Sc. Programme exclusively in Physical Education, Health Education & Sports.

### **4. The Practice**

ANJA College is very keen in upholding the concept "*Sound Mind in a Sound Body*" thereby coaching and training have been imparted to students through online/offline mode to hone their skills in sports and games. The pandemic has forced us to conduct the training programmes mostly through online mode.

### **5. Evidence of Success**

- No. of sports/games organized : 05
- University Blues Produced : Nil
- District Level:-
  - ♪ No. of students Participated : 09
  - ♪ Winners : 04
- State Level:-
  - ♪ No. of students Participated : 07
  - ♪ Winners : 07

### **6. Problems Encountered and Resources Required**

During the pandemic-lockdown, organizing sports & games in physical mode was impossible. Similarly, coaching / training to sports persons could not be also imparted. We need more funding for sports/games.

### **7. Notes**

ANJAC has been extending its support to other institutions in sports/games by offering infrastructure resources like the Indoor Stadium, playfields, courts, UGC-funded 50 bedded Sports Hostel and coaching/training through staff.
